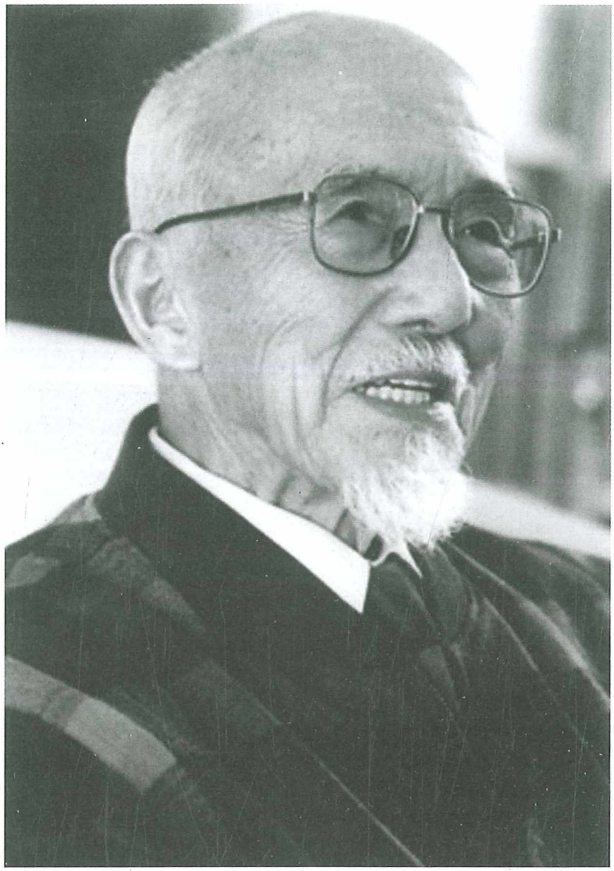
In Memoriam Professor CHOU IO



Am Montagmorgen des 15.XII.2008 verstarb Professor CHOU IO in Yangling/China, Provinz Shaanxi in hohem, gesegneten Alter von 98 Jahren. Mit ihm hat China eine herausragende Persönlichkeit und den Wegbereiter der modernen Entomologie in diesen Land verloren. Durch seine zahlreichen Publikationen (siehe Anhang) und seine über 60 Jahre andauernde Lehrtätigkeit, hat er einige Entomologengenerationen in Cina inspiriert, geprägt und zur westlich orientierten, modernen Entomologie hingeführt. Ich bin dem Schicksal sehr dankbar, diesen außergewönlichen, ungemein liebenswerten Menschen persönlich kennen gelernt

zu haben und auch für wenige Tage sein Gast, einmal in Ningbo/Provinz Zhejiang (EITSCHBERGER, 1996: 665-679) wie auch ein zweites Mal in Yangling (EITSCHBERGER, 1999: 359-376), gewesen zu sein. Die Erinnerungen an ihn und die Erlebnisse in China sind unauslöschlich in mir verankert! Um so mehr ergriff mich schmerzlich, tiefe Trauer als mir die unerwartete Nachricht über das Ableben des Freundes durch Dr. WANG MIN mitgeteilt wurde.
Prof. CHOU wurde am 8.VI.1910 in Ningbo geboren, die diesen berühmten Sohn am 6.VI.1996 mit einem eigens für diesen gebauten „Chou Io Entomological Museum" ehrte (EITSCHBERGER, 1996: 665-679).

Ein Bild von 1936 zeigt den Verstorbenen als jungen Mann in obigen Bild (hintere Reihe, Dritter von links), als er in Italien studierte, dort promovierte, die italienische Sprache erlernte und sich danach dem Esperanto zuwandte, das als moderne Universalsprache die Völker verbinden sollte. Das alleine sagt sehr viel über die Person von CHOU Io und dessen geistige Einstellung aus, dem das friedliche Miteinander von Personen, Ländern und Kulturen ein Grundbedürfnis war.

Als Begründer und Herausgeber der Entomotaxonomia sowie als Herausgeber der Monographia Rhopalocerorum Sinensium, wurde der Verstorbene auch außerhalb seines Heimatlandes zu einem Begriff für viele Entomologen.

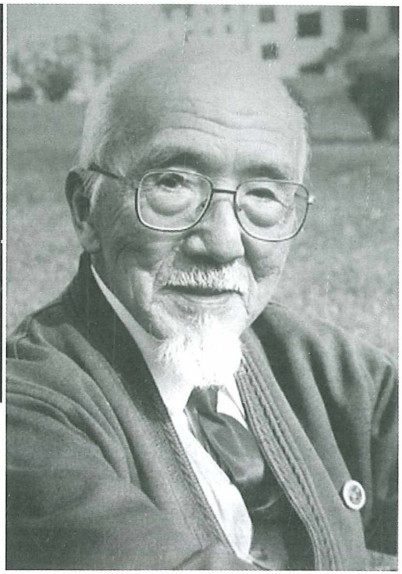
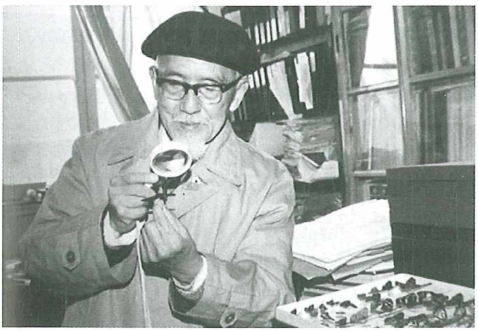
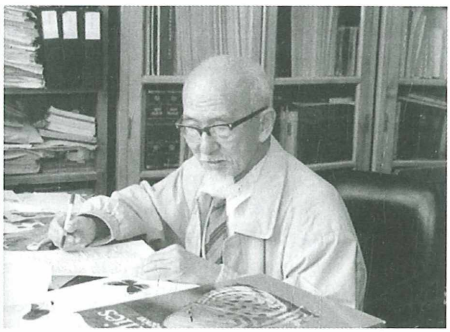
我在科学领域内，並没有作出重大的贡献，但我对祖国、对人民的火热的心，为学术艰苦奋斗的旅程，和半生坎坷的命运，也许体现了我们这一代知识分子的共性和特性。

周尧 99-6-8







Da ich in beiden oben zitierten Reisebrichten über das Wirken und das Werk von Professor CHOU IO schon ausführlich berichtet habe, begnüge ich mich zum Abschluß mit einigen ausgewählten Bilder, um Wiederholungen zu vermeiden. Mögen die Bilder dazu beitragen, daß die Nachwelt CHOU IO so in der Erinnerung behalten möge, so wie er als Mensch und Wissenschaftler sein Leben verkörperte. 203 Veröffentlichungen von Büchern und Artikeln tragen zu seiner „Unsterblichkeit" bei.

Für eine große Serie von Bildern über die Trauerfeierlichkeiten zum Begräbnis von Professor CHOU IO sowie seine Publikationsliste, die nachfolgend veröffentlicht wird, bedanke ich mich ganz herzlich bei Prof. Dr. WANG MIN, South China Agricultural University, Guangzhou sowie Dr. YUAN XIANGQUN, Entomological Museum, Yangling.
